Development: React, Svelte, JavaScript, HTML/CSS, Node.js, Python, SQL, Java
Monitoring and Operations: Datadog, Grafana, CheckMK, PagerDuty, Incident Response, Incident Communication, Monitoring & Observability, Royal TSX, IBM On Call Manager, IBM Cognos, Slack, Monday
AI and Automation: AI Agents, Model Context Protocol, Workflow Automation, Prompt Engineering, Claude, ChatGPT, IBM Bob

PROFESSIONAL EXPERIENCE

IBM | Austin
Technical Support Engineer | Jul 2026 – Present

- Support enterprise clients within IBM's Platinum Experience offering, IBM's highest tier of software support, across IBM's full software portfolio. Serve clients operating critical environments across global and central banking, insurance, payments, professional services, and automotive industries.
- Contribute to technical account support and client advocacy, maintaining a holistic view of account priorities, support needs, and emerging risks.
- Participate in account and ticket reviews, coordinate with subject matter experts and management, and keep stakeholders aligned on escalations, next steps, and remediation progress.
- Perform initial triage across support cases, analyze issues, and proactively communicate vulnerabilities and maintenance recommendations.
- Build and use AI agents and automation powered by Model Context Protocol (MCP) to streamline account monitoring, reporting, analysis, and client communications.

2K Games | Austin
Technical Operations Analyst | May 2026 – Jun 2026

- Monitored the health, availability, and performance of the full 2K game catalog — including NBA 2K, WWE 2K, BioShock, Borderlands, Civilization, Mafia, and PGA Tour 2K — using Datadog, Grafana, and CheckMK to maintain uptime for a worldwide player base in a 24/7 live-services environment.
- Maintained global infrastructure across on-premise data centers and public cloud, administering Windows and Linux servers and resolving issues across physical and virtual systems in live production.
- Provisioned, deployed, configured, and decommissioned virtual machines and servers throughout their lifecycle using vSphere and VMware.

Austin, TX | MOBILE: 615-705-2527 | EMAIL: jamal@jamalrizki.com | LINKEDIN: linkedin.com/in/jamal-rizki

- Led incident response and communication, coordinating status updates to studio teams and stakeholders throughout the incident lifecycle via Slack and PagerDuty.

Amazon | Austin
IT Support Specialist | Jul 2025 – Apr 2026

- Provided Tier 1/2 technical support for Windows and macOS environments, troubleshooting hardware, software, printer, and network issues for both corporate and in-store users across global teams.
- Supported Windows Server technologies including Active Directory administration, file server, and print server management.
- Administered Microsoft 365 and Active Directory for account provisioning, access control, and distribution group management; supported device compliance and configuration via Microsoft Intune and Azure AD.
- Resolved incidents and fulfilled service requests using ServiceNow, ensuring SLA adherence and maintaining high customer satisfaction across departments.

Charter Communications | San Antonio
Technical Support Specialist | Jan 2025 – Jul 2025

- Provided comprehensive technical support for customers experiencing issues with cable TV services, streaming platforms, and internet connectivity.
- Assisted customers with equipment setup, including Spectrum cable boxes, remote controls, modems, and routers, ensuring proper installation and activation.

ThriveDx | Remote
Teaching Assistant | May 2022 – Dec 2024

- Facilitated co-teaching programs as part of a software development bootcamp for American universities, including New York University, North Carolina State University, University at Buffalo, New Jersey Institute of Technology, Old Dominion University, and the University of Nevada, Las Vegas.
- Served as a subject matter expert for website development tools and technologies as well as Agile methodologies/frameworks.
- Offered instruction, guidance, and advisement to students through the software development bootcamp, covering topics such as HTML and Web Accessibility, CSS and CSS Frameworks, UX/UI Design, JavaScript and Front-End Web Development, Back-End Development and APIs, React and Redux, SQL and Data Modeling, Cybersecurity, Python, and Cloud Computing.

Audacy | New York
Web Developer | Jun 2021 – Jun 2023

- Developed and maintained C13features.com, a high-visibility podcast movie concept site, using HTML, CSS, and JavaScript; managed the site manually via FTP and cPanel, ensuring uptime on GoDaddy.
- Built and updated individual podcast single-page feature sites for subsidiaries Cadence13 and Pineapple Street Media using Jinja, Flask, Bootstrap, Sass, and Python; managed static content via Amazon S3, deployed sites using Docker to Jenkins, and hosted on AWS EC2 instances with Nginx as the web server.
- Provided technical support and troubleshooting for embedded music player software for clients like Crooked Media, Tenderfoot Media, Pineapple Street Studios, Sofia Franklyn, Glennon Doyle, and more.
- Edited websites to ensure ADA and GDPR Compliance, addressed cybersecurity concerns, including geofencing and security flaws, implemented Trust Cookies, and performed site edits for compliance.

ADDITIONAL WEB DEVELOPMENT PROJECTS

Zest_Cocktails App (Link) | Designed, developed, and published a cocktail recipe mobile app using React Native
Pure Intervals (Link) | Designed, developed, and published a custom timer mobile app using React Native
